CONFERRING OF HONORARY DEGREES

St. Je Ma e C e e a d, OSF '64, Vice President for Mission Effectiveness

the 1990s, the number of people who are employed in the service sector has increased in all countries, but the increase has been particularly large in the United States.

There are several reasons for this. First, the service sector has become more important in the economy. Second, the service sector has become more important in the labour market. Third, the service sector has become more important in the social structure. Fourth, the service sector has become more important in the culture.

The service sector has become more important in the economy because of the increasing importance of services in the economy.

The service sector has become more important in the labour market because of the increasing importance of services in the labour market.
